Cosmos has collapsed and mankind lives on the few remaining ground.

The information of the old world began to dissolve, the ocean of information fell into chaos and filled the atmosphere of the world. To repel the attacks of winged marine life that comes flying from the ocean, mankind uses the wisdom of the old world to create young girls called "angels", and entrusts the world's future to them.

Earth was
blue

Stars glittered
in the universe

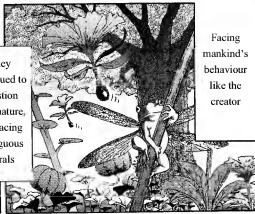

The era was
recorded
as A.D. —

Creating artificial
life and various
subspecies, the
environment and
laws of nature
were manipulated
at will

Mankind
controlled
all creation

They
continued to
question
their nature,
embracing
ambiguous
morals

Facing
mankind's
behaviour
like the
creator

However,
failing
to control
its greed

The world

12.08.1042 Marked calendar

The true crusade expeditionary force, consisting of eight 6th angel corps members and 40 Rauls recruit corps members, went southwards alongside the eastern gulf coast area defense line.

Departing to the Baranus outpost base,
the southernmost summit of hope from Cathedral.

The holy land lies further westwards from there.

The Characters

Rakija Maris Stella (Left)

Angel who holds the title of Maris Stella.
Her hobby is collecting hats.

Thalys (Right)

An older sister figure with a
sweet tooth.

Brigitte (Right)

Noble from a rare kind of demi-
humans. Fastidious.

Korn (Left)

Very earnest. Hobby is
admiring stones.

Blanc (Top) younger twin

Confident in her brute strength.
Skilled baseball player.

Chocolan (Bottom) older twin

Nunchalantly chews gum that has
already lost its flavour.

Alouda (Left)

Noisy blabbermouth.
Smokes are 'Lucky Strike'.

Juri (Right)

Quiet and composed.
Systema champion.

-3RD Angel Company-
Has corps spread across the great desert. Securing resources is their duty. Their motto is "Let's go for a hunt"

-1ST Angel Company-
Guarding the Valley of Death. The deep valley becomes a big waterfall after it gets swallowed down by the flowing tide. Often cooperates with the 3RD company.

-6TH Angel Company-
In charge of the defence line's eastern part. An area of ocean with many hard to pass places if the tide flows in from the open sea. They also look after brackish waters, lagoons and such.

-Rauls Recruit Corps-
The only angel school, also Ymir and Mikia's alma mater. In order to lower the ages of angels, elementary, middle and high school were turned into an integrated school system.

-10TH Angel Company-
Protecting the capital's anti-tide forest. Separated from the open sea thanks to the Zebull mountains.

-9TH Angel Company-
In charge of the defence line's southern part. A team that excelled in open sea operations. Contact was lost while they headed for the holy land.

Tab angels aren't grateful for and don't want to attach.

-Airborne Troops insignia-
Attached to the beret

Badge awarded as proof that bismuth was gained after intercourse with a cherub.

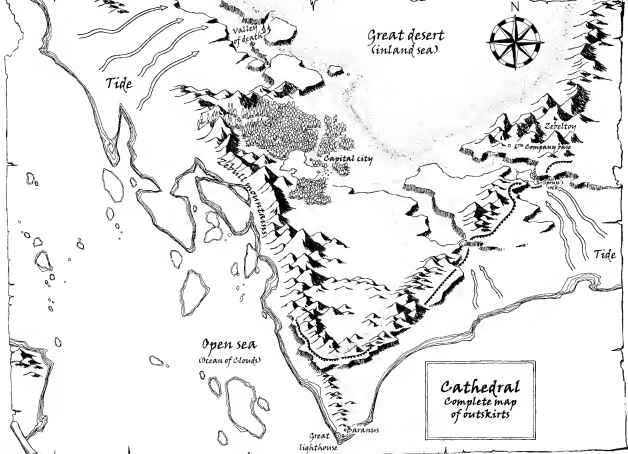

Scrapped rough sketch of the 10 main characters from the early planning days.

Blanc and Alauda are together with Ymir and Mikio. I also thought about such development. As the author, seeing such a picture is painful.

Rough sketch of the battlefield. I imagined them as airborne troops. They can pull out and retract their wings. Since it's SF, this is by no way magic (LOL).

ATTENTION TO THE READER

In a world of compromises, some people put watermarks on their pages...

But it doesn't matter, because our translations are the fastest ones out there. Look at how cool our translator is... if you send us money you will be that cool of an operator too. And chicks will dig you.

At /aki/, we stuck some translated text on a manga page, just like a bunch of other scanning groups have done. However ours is better, because we refuse to post it to any other sites than [http://ak-scans.wikia.com](#) and [http://ak-scans.wikia.com](#). Because

Our wiki is the greatest wiki ever made. It may be unorganized and have limited content, but that's your fault. If you were a real operator you would love it. Once again look at our translator, that sig sure is cool isn't it?

Yeah, you know you want to send money to us

And by the way, check out our new website. We decided that humans don't need to quickly read manga by webpages. If you were a really manly autistic operator, you wouldn't be bother by downloads, plus we've tested the server to be able to take 100,000,000 requests at one time, and that was when the server was buried in a lake of molten lava, on the moon. If you don't believe us, it is because you aren't a real operator.

By the way, our cheap, mass-scanned manga are the best thing ever, and totally worth giving us lots of money, but not that cheap, mass-scanned, manga from other people, that's garbage. Not that it matters because you're not in our threads, so you will have to wait for your translations. Because you suck, and we hate you, but we know you'll be back. We can beat you down like a trailer park wife, but you'll come back, you always do.

Give us money.

Sincerely,

/aki/ Marketing Department
